CONSULTATIONS & NEW CLIENTS

As a master botanical skincare formulator with over 30 years experience, I source the very finest ingredients to tailor the best approach for your skin. My method for corrective skincare combines this knowledge with the latest innovative Korean products and advanced modalities to achieve unparalleled results.

New Client Consult + Customized Facial

Your first visit begins with a thorough consultation to understand your skin history, current concerns and goals. The rest of your appointment is dedicated to your Custom Corrective Facial, which includes a skin analysis, a double cleanse, exfoliation, custom mask, targeted serums, and mineral SPF. Together we'll create a personalized treatment plan and home care routine to maximize your results and help you reach your skin goals.

Virtual Consultation

What we do at home consistently accounts for 65% of our results and can help to maintain and maximize professional treatments. Schedule a consultation to go over your concerns and set you on the path to beautiful skin. We'll discuss areas of opportunity, assess what you're using and create a personalized skin care plan designed for your goals. Includes a \$100 credit toward your product purchase.

PRODUCT PICK UP COMPLIMENTARY, 10 MIN

Please book to pick up products you've purchased or ordered. This does not count as a consultation. For a customized home care routine, book a Virtual Consultation or a facial, where I'll recommend the products best suited to your skin. [BOOK ONLINE →](#)

Customized Corrective Facial

Designed for your exact complexion, this facial is customized to address your skin's specific needs and deliver visible results. It includes a thorough skin analysis to determine the products and modalities to be used during the facial. This treatment includes a double cleanse, exfoliation, a custom blended mask, treatment serums, Ultrasound with LED and Microcurrent.

Plump Lift & Glow

If you have aging skin, you'll especially love the instant improvement in fine lines and facial contours. This facial gives everyone a more lifted, youthful glow, the ultimate instant transformation. It includes a double cleanse, ultrasound, LED and microcurrent, a volumizing peel, and a Korean treatment mask with Gold and PLLA (long used to stimulate your own collagen production) for immediate plumping. You'll take home the mask to apply for two more treatments to extend the effect, and a series can produce lasting results. An excellent choice before an event. Your skin will be firmer, plumper, more hydrated and absolutely radiant.

Korean Needle-Free Filler Facial

Skin Plumping Without the Needle

This revolutionary treatment produces filler-like results. PLLA (Poly-L-Lactic Acid), a bio-collagen stimulating ingredient, along with a patented hydrogen encapsulated mask, drives key ingredients deep into the skin. This non-invasive, anti-aging skin treatment softens fine lines & wrinkles by plumping the skin, and restoring youthful volume to the face. (These treatments can also make injections last longer.) It's Hollywood's best-kept secret.

There's no downtime, except avoiding water and perspiration for 12 hours. One treatment can last for 6 weeks and a series of 3 treatments, each done 7-10 days apart, can last for 5 months. Results are cumulative and are maximized when using the home care system. Before and After photos are optional and allow you to see your progress.

Advanced Skin Tightening Facial

This state-of-the-art treatment utilizes potent formulations containing both a topical neurotoxin and a bio stimulator. These are combined with cold plasma and nano technologies. This facial delivers unparalleled, no downtime results, leaving your skin positively luminous and rejuvenated. It is a great extender of injectables and may eliminate the need for injectables altogether.

Jawline Sculpt Facial

This advanced treatment is for you if you have loose, saggy skin around the jowls, neck, cheeks and nasolabial folds. This treatment will help firm and restore elasticity to aging skin for a more defined jawline. Before and after photos show you immediate visible results. For best results, this facial is done as a series: one treatment every 2 weeks for 3 sessions, followed by monthly treatments for maintenance.
